MAXIMUM FREEDOM

LevelM

The fully automatic lifting support system
for motorhomes

LevelM

ALIGN COMFORTABLY

Simple, fast and fully automatic into the perfect horizontal position.

The LevelM hydraulic lifting support system levels motorhomes easily, quickly and fully automatically. The intelligent control electronics from E&P distribute the weight of the vehicle across several supports to avoid torsional forces. The standard set consists of four supports, each with a load capacity of two tonnes, which is sufficient for most motorhomes. E&P also offers suitable support systems for heavier vehicles, such as horseboxes and racing vans up to 30 tonnes.

Maximum comfort and stability: LevelM from E&P ensures effortless, fully automatic levelling - even with the heaviest loads!

CONTROL WITH ADDED VALUE

LevelM precisely compensates for unevenness and slopes.

The system can also be controlled manually.

- | In order to empty the water tank, an individual individual tank emptying position can be saved.
- | In manual mode, each side of the vehicle can be lifted individually.

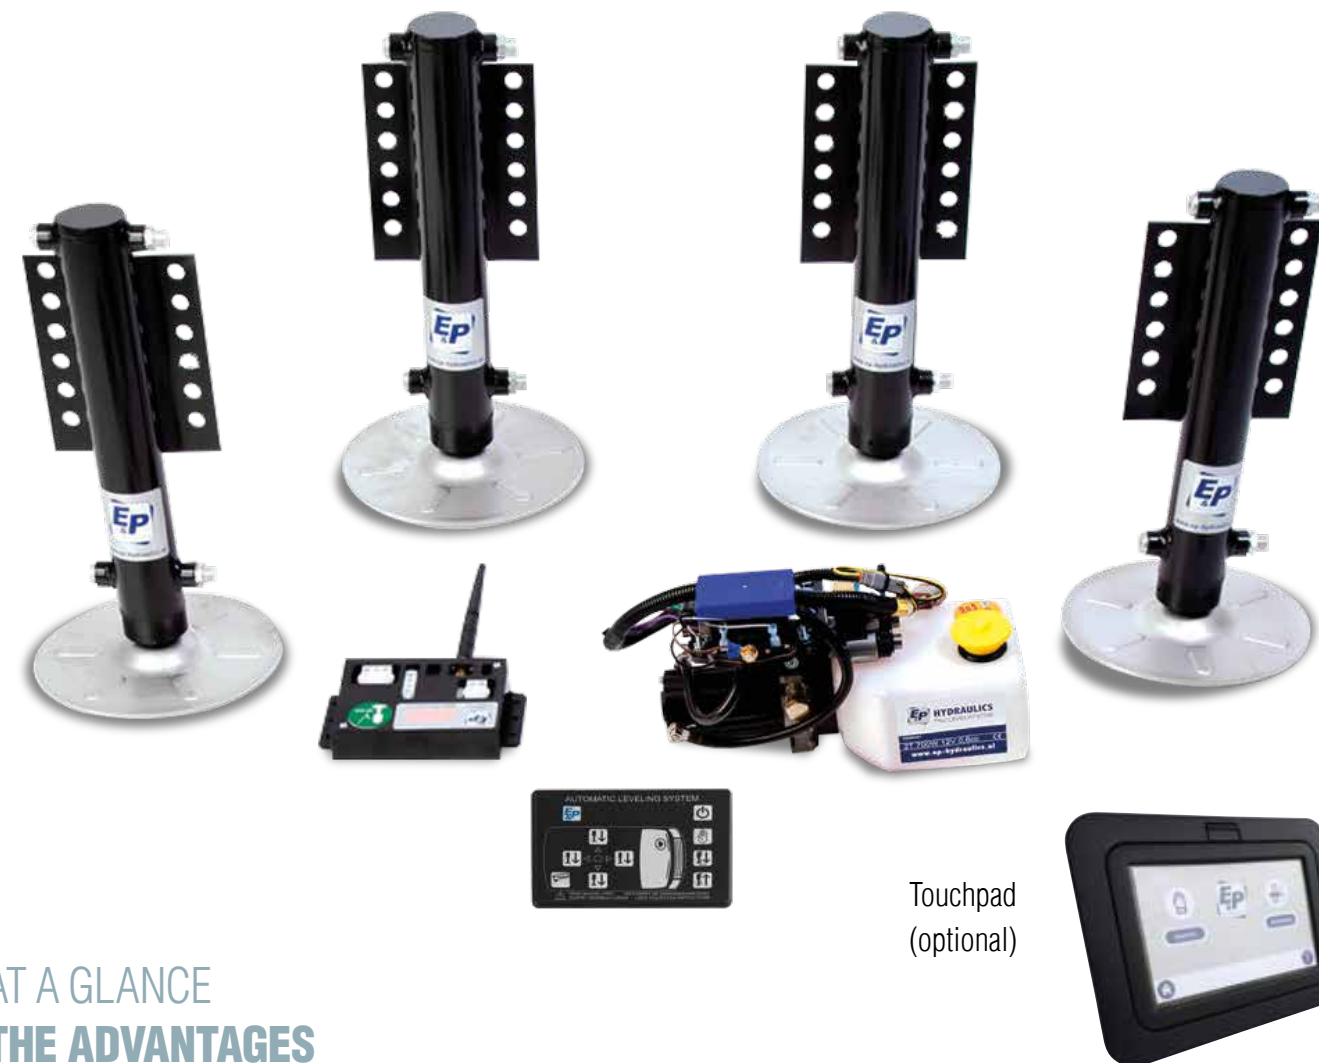

LEVELLING SYSTEM MEETS AIR SUSPENSION

LevelM automatically controls compatible air suspension systems. The air is released from the air suspension. As a result, LevelM offers maximum protection for the air suspension during the levelling process.

MAXIMUM COMFORT

ALWAYS ON THE ON THE SAFE SIDE

Thanks to the drive-away protection, LevelM only works when the ignition is switched off. In an emergency, the supports can be retracted by emergency operation.

AT A GLANCE THE ADVANTAGES

- | Horizontal in just a few minutes
- | Completely hydraulic and fully automatic
- | Stable and secure stand
- | Immediately ready for use
- | For motorhomes from 3.5 to 30 tonnes gross vehicle weight rating
- | Available in various lifting lengths
- | Drive-away protection and emergency operation
- | Can be combined with full air suspension 4-C system from VB and AL-KO

SCOPE OF DELIVERY

- | 4 x hydraulic cylinders
- | Central hydraulic unit
- | Electronic control unit
- | Permanently installed control panel
- | Optional: control via touchpad
